Quality Early-Education for Your Children

We aim to create a sense of community and instil a passion for learning in every student, including our very youngest learners.

Young children love to learn, play and explore, and we give them everything they need to encourage them to learn in the ways that make them happiest from an early age.

Key Advantages Of Learning At Leo Kid's Prep School

- 1 • Children accommodate themselves in an organized set-up during early education. **Leo Kid's Prep School** believe that early learning should be as wholesome as primary and secondary education, unlike which is basic in most schools.
- 2 **Leo Kid's Prep School** provides different methods of learning at the preschool level.
 - We ensure project-based learning, field trips, and other audio-visual sessions to help increase their self-interests and engage them in teamwork simultaneously.
 - We expose them to The Theory of Multiple intelligence that focus on holistic development. Students are engaged in different activities that increases their linguistic, musical and kinesthetic skills.
 - We also work on developing intrapersonal and interpersonal skills.
- 3 Infrastructure at **Leo Kid's Prep School** helps the students to be well-acquainted with advanced teaching methods in early childhood to prepare for a competitive educational system at Primary & Secondary Level.

By enrolling your child in Leo Kid's Pre School in Nursery and Junior K.G. you get an advantage of securing direct admission into TBIS (Parent School).
